

# Le camp d'été FRANCO-FUN en VACANCES 2007 Summer camp

## Swimming Policy

- The Franco-Fun Summer camp leaders will go swimming with the children only in pools and lakes that are continuously supervised by lifeguards.
- The Franco-Fun Summer camp leaders consider the city water parks to be safe, regardless of the children ratio.
- No swimming will be allowed on the ocean beaches due to lack of lifeguard supervision.
- When the number of children present to the camp will be **more than 10**, the Franco-Fun Summer camp leaders will not go swimming at Westwood Lake.
- We consider the water accident risks higher under these conditions:
  - **Busy beaches, especially during Holidays season.**
  - **Many children and families around with not much lifeguards supervision**
  - **Limited number of lifeguards (2).**
- When the number of children present to the camp will be **less than 10**, the Franco-Fun Summer camp leaders will consider going to swim at Westwood Lake. However, here are the rules that will be followed:

### **At all time:**

- **Children will not be permitted to swim over the dock.**
- **Children will not be allowed to swim if the water overpass their belly button lines.**

**These rule will be applied regardless of the age of the children.**

### Westwood Lake:

While we may not go there every week, we feel it is necessary to advise you that it is a naturally occurring lake with many animals living around it. Thus, there are many bacteria and other such things that have the potential to make children sick. If you consider your child(ren) to be at risk of serious illness as a result of exposure to these naturally occurring elements, please let us know. If your child owns a lifejacket, please bring it along.
